Short Term Aid to Long Term Solutions

We see Ukrainian refugees as the greatest asset to winning this war against Russia. We endeavor to preserve their way of life, not just their country.

Experienced non profits with established credibility in their fields collaborate, start making decisions, creating programs and investing in the long term care of refugees.

Create a facility that can replicate a normal life. Individual rooms and spaces for the nuclear family, children return to school and developmentally stimulating activities, empower the family leaders to find independence and purpose. All this makes it possible for healing to begin.

What can we achieve together?

A new winter wave of 800,000 refugees is coming.

Together we will provide shelter for 100,000 of them.

What can we achieve together?

**Help us prepare school
for refugees.**

**We are opening an
education center in
September.**

What do we need?

**To continue our mission we need
just \$12 / person / day**

What do we need?

**To continue our mission we need
\$9 milion a year**
