

Modlińska Humanitarian Center

Be an everyday hero through Americans for Ukraine

Heroes are ordinary people who make themselves extraordinary. — Gerard Way

At a glance

Russia's full-scale war compelled the Modlińska Expo in Warsaw, Poland to launch the Modlińska Humanitarian Center ("Modlińska") to help Ukrainians fleeing to safety.

As Europe's 2nd largest humanitarian center, **Modlińska is pioneering how humanitarian aid is planned and delivered. We need your help, so we launched Americans for Ukraine.**

CHALLENGE

In the 2022-2023 winter alone, Modlińska is expecting **100,000+ Ukrainians fleeing Russia's war**. Right now, the center has funding to operate for **4 weeks**.

SOLUTION

We need just **\$12/day/displaced person** to continue because **Modlińska operates efficiently and in a modernized — and transparent — way**. For \$9M in 2023, we can help Ukrainians fleeing to safety and **reduce the humanitarian and economic burden on the U.S.** and the rest of the world by supporting Ukrainians at Modlińska.

Home instead of homelessness

Food instead of hunger

Medical & psychological help instead of bombed hospitals

Incubator programs serve as case studies for worldwide use (see p. 2)

Safe education instead of bombed schools

Jobs instead of no income

BE A HERO FOR UKRAINE

Donate

1

Make a tax-deductible donation at Americans4Ukraine.org. Modlińska's Americans for Ukraine is a 501(c)(3) non-profit. Every dollar possible goes to helping displaced persons.

Support government funding of Modlińska

2

Contact your [U.S. Congress members](#), and ask them to support Modlińska. Join our mailing list to receive info on specific needs and updates: join@Americans4Ukraine.org.

KEY DATA

- As of October 5, 2022, [nearly 3 in 4 Americans](#) (73 percent) say the U.S. should continue supporting Ukraine, despite polarization in the U.S. right now on nearly every other issue.
- For every displaced person in the U.S., it costs the U.S. taxpayer [\\$15,900 per year, or nearly \\$80,000 over a five-year period](#).
 - Supporting people fleeing Russia's war on Ukraine at Modlińska costs less than one-third that amount and allows them opportunities to find jobs, education and support resources closer to their home.
- Most Ukrainians want to return to Ukraine ([60 percent](#)), but they are waiting out the war to do so. Helping them closer to home makes it easier for them to return.

WHAT SETS MODLIŃSKA APART: INCUBATOR PROGRAMS

- Modlińska Humanitarian Center aims to revolutionize and modernize how the world handles humanitarian crises by pioneering innovative solutions, which will be shared with other organizations, that empower displaced persons to take back control of their lives. Incubator programs spearheaded by the center include:
 - Educational programs that keep children learning, both inside and outside the classroom. [Modlińska is already running educational incubator programs.](#)
 - Programs based on our centrally located facilities that allow displaced persons to integrate into the local culture, versus the often remote tent cities the world is used to seeing.
 - Career programs that empower displaced persons to obtain work that either matches or surpasses the skills they had prior to displacement.
